

Story:

The Tyrannosaurus Rex wants to hunt the other dinosaurs. You have to find out who is the Tyrannosaurus Rex. Only the Tyrannosaurus Rex can lie.

There are 2 parts of the game. Night-time and Daytime. During the night, everyone has an action they must perform. The Narrator (or Teacher) will read the script and make sure everyone is doing their correct action.

During the daytime, everyone must discuss who did what and try to figure out who the Tyrannosaurus Rex is. You have 3 minutes to discuss (or however long the Narrator allows). At the end of the discussion everyone votes for who they think the Tyrannosaurus Rex is.

If everyone discovers the Tyrannosaurus Rex, they win. If No one discovers the Tyrannosaurus Rex, the Tyrannosaurus Rex win.

*This game is a Dinosaur-themed adaptation of [One Night Ultimate Werewolf](#) for ESL Classroom use.
